As it's Friday, I'll put a link to an arithmetic paper. Remember, not to cheat and look at the answers at the end and you don't need to print it out. Just jot your answers down and you can time yourself if you want to. Good luck!!

Get your child to work on their [reasoning and problem solving](#) by practising past SATs questions that are broken down into topic areas and have videos linked to them that can be watched if needed. As these are older papers these are suitable for both years 5 and 6. Click on one of the topic areas listed to gain access to the questions.

How did you get on remembering Wonder? I've started to read more of the story. There are some questions to answer about what you have heard.

1. Why do you think that Auggie and Jack have all their classes together?
2. What happens when Auggie gets knocked down the stairs?
3. Why do you think Jack and Auggie laugh so much in their next lesson?
4. What is the precept for October?
5. Explain what the precept means.

TEST DAY!!

Ask someone in your house to test you on your spelling or you can use the video on the website. Let me know how you get on.

Writing

30 mins

Finish your story, if you haven't already and edit when you are. Remember to check for spellings and punctuation errors. Check the basics. Have you remembered all the full stops?

What's happened in Wonder so far...

August is a boy who looks a lot different to the other kids. He's always been home schooled but his Mom and Dad think that it's time for him to go to school with other people. He isn't keen. He goes on a tour of the school with some of the other children and one of them, Julian, is really mean to him. When he starts school, all the other kids stare at him, and so do the adults, but Jack is nice to him and they sit together. Auggie meets Summer during lunch and she is also kind to him. His teacher, Mr Browne, introduces the idea of precepts, which are like rules that you should try and live by.
