YEAR 6

WEEK 13

THEME: AROUND THE WORLD

Date: Thursday 9<sup>th</sup> July

MATHS- Investigation Answers from Wednesday

45 minutes

## Patio pathways answers

arm length	2	3	4	5	6
red slabs	3	5	7	9	11
grey slabs	12	16	20	24	28
total slabs	15	21	27	33	39

Predict how many grey slabs you will see if the arm length was 9 slabs.

Answer ON THURSDAY

## MATHS- Volume

Remind yourself how to find the volume of a cube or cuboid [with this video](#). Now find several objects (with permission) that are this shape and use your ruler to measure the height, length and depth. Multiply these values and find the volume in  $\text{cm}^3$ . You could use food containers, books, cupboards, photo frames, for example. At school, we are going to find the volume of the raised beds to see how much soil they hold.

We want to create a Time capsule at school.

Should we bury it?

Is there a risk?

What should we put in it?

What alternative is there to save photographs, memories and objects from Summer 2020?

What should we put in it?

Email your ideas to me.
