## ENGLISH

### **Reading 15 mins**

Read your own book and record it in your journal

### **Writing 35 mins**

Using the date of your birthday (not the year) enter the date, month and 'for kids' in your browser. You should find a website called 'Kiddle'. Scroll down to find out what events have happened on your birthday date. Select 5 events from anytime in the past that happened on your birthday that interest you and create a newspaper front page with 'YOUR NAME CELEBRATES HIS/HER BIRTHDAY' as the headline. Work out how many years since the events happened and include it on your front page. Try to find a variety- maybe a sporting event, a famous person's birthday, achievements in any part of the world.

Decide a name for your newspaper and don't forget to date it for this year. See the example below. It can be done in your books or on a computer.
