

HOME LEARNING

YEAR 6

WEEK 3

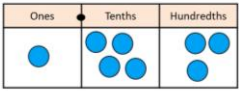

THEME: VIEWPOINTS

Date: Tuesday 21st April 2020

MATHS- Choose one

45 minutes

Can you still do these?

- 1) Divide 32 by 100
- 2) What number is represented on the grid?

- 3) Write $\frac{3}{10}$ as a decimal.
- 4) What is 1,000 less than 8,793?
- 5) What is the name of 3D shape?
How many faces does it have? What shape are they?

Can you still do these?

- 1) Write down the ratio of apples to pears.

- 2) What fraction of the shapes are squares?

- 3) 5 miles is about 8 km.
How many km is 60 miles?
- 4) Multiply 3.28 by 9
- 5) Write down the clock time in digital and analogue.

When you finish either task, play 'Make 20' for the remaining amount of time. Make a list of the numbers 1-20 down the side of your page. Select 4 digits between 1 and 9. eg. **4,6,9,1**. Using only these can you make the answer 1? $6 - (4+1) = 1$; then $2? 6 - 4 = 2$; then 3? Keep going until you have made all the number between 1 and 20. Some are trickier. It should be possible to do this with any 4 digits you choose. Remember you can use +, -, x, ÷ and you can only use the digits once in each calculation.

ENGLISH

60 minutes

Reading 30 mins

See below

Spelling 10 mins

Several of yesterday's words had a -tion [shun] ending.
How many can you think of in 5 minutes?
List them in your book.
Check that they end with -tion and not -sion using an online dictionary if you don't have one at home.

Writing 20 mins

This week's theme is on viewpoints.
Make a list of viewpoints in your book about what your household thinks. Phone or message other family members with permission, on today's topic for discussion:
Should animals be kept in zoos?

PHYSICAL ACTIVITY- Choose one

30 minutes

[Joe Wicks Work Out](#)

9am The Body Coach on You Tube or use a uploaded video

[Oti Mabuse Dance](#)

11.30 Oti Mabuse Official on You Tube or use previous uploaded video

THEMED LEARNING

45 minutes

The learning project this week aims to provide opportunities for your child to learn more about different viewpoints. Learning may focus on physical viewpoints in terms of what you can see outside of the window at home, personal viewpoints and those of others.

Geography

Stand in your favourite room. Find out which direction is North, South, East and West from this room. Ask permission from an adult to use a Smartphone to check on a compass or use your Science knowledge about the rising and setting of the sun. (It rises in the East and sets in the West). What can you see when you stand facing North? South? East? West? Where is the window? It might be one of the directions between like North West. Draw a plan of this in your book and label N, S, E and W. You should also be able to label the directions in between (NE, NW, SE, SW)

Show on your plan the window and door.

Write description about what you can see from the window with as much detail as possible.

TEAM PLAYER SKILL

I am helping an adult prepare meals.

INDEPENDENCE SKILL

I can tie shoe laces.

READING TASK

30 mins

Look carefully at the picture.

Write :

I see (lots of detail)

I think..... (What can you infer?)

I wonder... (What questions do you have?)

Write your answers in your book:

Why do you think the little girl enjoys being in this library so much?

Can you tell anything about a person by the types of books they read?

If you could write a book, what would it be about?

Which type of books would you like/not like to come alive?
