

HOME LEARNING

Reception

WEEK 8

THEME: ANIMALS

Date: 02.06.2020

MATHS

We are continuing to look at numbers to 20 today, can you count all the way up to 20 using your fingers and toes? Once you have counted I would like you to have a go at the game below. Curious George is picking apples and needs your help to choose the correct numbered apples. During the first few goes it will only look at numbers to 10 and then afterwards move onto numbers to 20.

[Curious George Apple Picking](#)

Once you have helped Curious George to pick the apples I would like you to have a go at writing numbers to 20. Try to make sure you place the 1 first when doing your teen numbers.

LITERACY, COMMUNICATION AND LANGUAGE

Reading: Just a reminder to make sure you are reading regularly with an adult, if you register and log into Oxford Owl there are ebooks that you can use on there. Here's the link: [Oxford Owl EBooks](#)

I want you to look at the animal sheet below and choose an animal from it. Think about how the monkey in the story Monkey Puzzle had to describe the features of his mummy to the butterfly. Imagine you are writing some clues for a friend to guess which animal you have chosen. Firstly, describe the animal out loud, look closely at its features and what it looks like and then use your phonics to write a sentence or two describing the animal. For example, if you choose an Owl you might say "My animal has feathers" Or "My animal has a beak".

PHYSICAL ACTIVITY- Choose one

[Joe Wicks Work Out](#)

9am The Body Coach on You Tube or use an uploaded video

Cosmic Kids:

THEMED LEARNING

Some of the wild animals we will be learning about this half term live in the rainforest. The rainforest is a huge environment completely covered with trees. They are extremely warm and like the name suggests, get a lot of rain. Lot's of animals and plants live in the rainforest. Watch this song which tells us a bit more about the rainforest and the animals that live there:

[Andy Raps Rainforest](#)

Then with the help of an adult I would like you to use the internet to find a map which shows how much of the world is covered in rainforest. Are there any rainforests in the UK where we live? I would then like you to find out and make a list if you can of more animals that live in the rainforest, you could even have a go at drawing some of them if you wanted.

INDEPENDENCE SKILL

This week I would like you to work on learning your address. Ask an adult what house number you live at and see if you can spot it on your house or front door. Then see if you can learn your street name and which town/ country you live in.

chameleon

rhino

turtle

bison

panda

gibbon

spider

parrot

snake

emu

penguin

tortoise

bear

giraffe

owl

tiger

anteater

panther

lion

zebra

hyena

marmoset

gazelle

lemur

elephant

chimpanzee

wolf

leopard

red panda
