

HOME LEARNING

Reception

WEEK 9

THEME: ANIMALS

Date: 10.06.2020

MATHS

For today's maths activity I would like you to find an empty box, Tupperware container, hoop or anything you can throw objects into. Make yourself some number cards by ripping some pieces of paper and writing numbers from 11-20 on them. I would then like you to find some objects you can throw, you will need up to 20 of them so something like small soft toys, counters, small animal toys or if you don't have anything then scrunch up some old newspapers to make 20 balls. Once you have all your things ready, I want you to turn over the number cards and pick one randomly. Whatever number is on the card is the amount of objects you need to throw into your container. So, if you turn over a 12, you must throw 12 items into the box, count carefully as you throw them. Repeat using different number cards.

LITERACY, COMMUNICATION AND LANGUAGE

Reading: Just a reminder to make sure you are reading regularly with an adult, if you register and log into Oxford Owl there are ebooks that you can use on there. Here's the link: [Oxford Owl EBooks](#)

Today I would like you to practise your segmenting of sounds. Follow the link below to the Phonics Play website and try the Space Race game. You must listen to the word being said and then write the word in the box in order to get across space. The website is free for home learning and the login details are:

Username: march20

Password: home

Start with Phase 2 and then if you find this easy, move onto the more difficult phases.

PHYSICAL ACTIVITY- Choose one

[Joe Wick's Work Out](#)

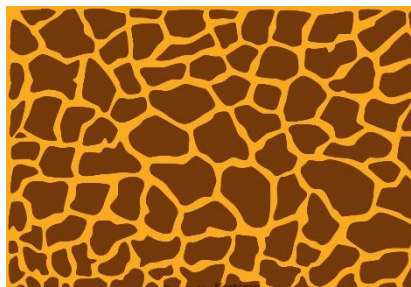

9am The Body Coach on You Tube or use an uploaded video

[Andy's Wild Workout - African Savannah](#)

THEMED LEARNING

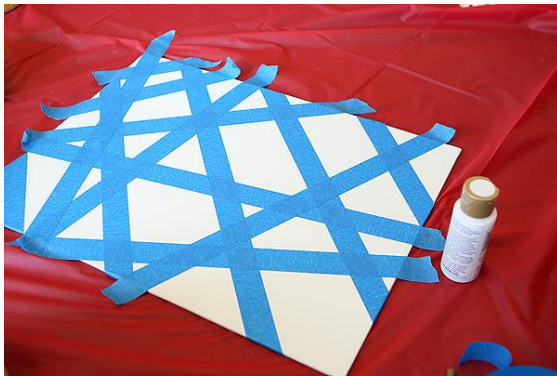

Yesterday I asked you to get some masking tape ready for this activity. You will need: some paper, masking tape and some paint or coloured pens or pencils.

Today we are going to create some animal print art. Have a look at the different animal prints below and see if you can guess which animal they are from:

Can you guess the animals?

After looking at the prints I would like you to try and create an animal print of your own. To do this you (and an adult helper) need to place the masking tape in patterns on the paper. So, if you are doing giraffe print then the masking tape would need to overlap and create sections that looks like the shapes of giraffe print, if you have chosen tiger or zebra then the tape will need to be placed in straight-ish lines to create the look of stripes. Once you have placed the masking tape on I want you to paint the sections that aren't covered in tape. Leave to dry and when you peel off the tape you should have something that looks like your own animal print. Here are some examples of how to place the tape to help you:

You could even invent your own imaginary colourful animal print by doing something like this:

Have fun and let your imagination run wild!

INDEPENDENCE SKILL

This week I would like you to choose your own clothes. You need to think about all the things you need to wear each day, e.g. underwear, socks, trousers/skirts, t-shirts/jumpers. Look outside at the weather and decide if you need to dress for cooler or warmer weather.
