

HOME LEARNING

Reception

WEEK 9

THEME: ANIMALS

Date: 08.06.2020

MATHS

Today we are going to continue practicing our numbers but will also be concentrating on making sure we are counting accurately. When we are counting out large quantities of items it's important to do it as accurately as possible and one of the ways to do this is by lining objects up and counting them by pointing or touching from left to right, that way you are unlikely to miss any.

Today I would like you to get a large sheet of paper or put two A4 pieces of paper together, I would then like you to write numbers 11 to 20 down the left side (adults, try to encourage them to space them out as they will have to place objects next to the numbers). Once you have written the numbers, I would like you to find something in the house to use for counting, it could be coins, buttons, counters, pasta, anything you have at least 20 of. I would then like you to place the correct amount of items next to each of the numbers you have written, so next to 11, place 11 objects. Place them in a straight line and only count them once you have put them down on the paper. Go back and count them to check you have the correct amount by pointing at them left to right and then move onto the next number.

LITERACY, COMMUNICATION AND LANGUAGE

Reading: Just a reminder to make sure you are reading regularly with an adult, if you register and log into Oxford Owl there are ebooks that you can use on there. Here's the link: [Oxford Owl EBooks](#)

As we discussed last week, letters have both names and sounds. I want you to continue practising both the letter names and sounds regularly so here is an alphabet song for you to become familiar with the letter names [ABC Song](#)

Now I want you to think back to our story 'Monkey Puzzle'. The poor monkey couldn't find his mummy in the story, sometimes when animals are lost their owners make 'Lost Posters' to help find them again. Below are some examples of 'Lost Posters'. Have a look at them and discuss with an adult what you will need to put on your lost poster (a picture of the animal, name, description). I would then like you to try and create your own Lost Poster for monkeys mummy.

PHYSICAL ACTIVITY- Choose one

[Joe Wicks Work Out](#)

9am The Body Coach on You Tube or use an uploaded video

Today have a watch of the Animal Boogie song, have a listen to what sorts of movements the animals do and see if you can dance along like the animals, e.g. 'shake like a bear', 'swing like the monkey'.

[Animal Boogie](#)

THEMED LEARNING

In the Monkey Puzzle story, the monkey lost his mummy and the butterfly struggled to help him because the butterflies babies look completely different. Today I want you to think about animals and their babies, can you think of any more animals where their babies look completely different to their mummies?

Next, have a go at this pairs matching game where you have to match the animal and mummy:

[Mummy & Baby Matching Game](#)

INDEPENDENCE SKILL

This week I would like you to choose your own clothes. You need to think about all the things you need to wear each day, e.g. underwear, socks, trousers/skirts, t-shirts/jumpers. Look outside at the weather and decide if you need to dress for cooler or warmer weather.

LOST DOG

"HAILEY"
CHIHUAHUA MIX

LOST DOG

Lolly

Lolly is a small gray spotted scruffy dog.
She was last seen next to a dumpster on 14th of May.
She does like to be patted and may be wearing a tartan coat.
She does not respond to her name but will be happy to see you.
Please help us find Lolly!! :(
