MATHS

Warm up for today: Count up to 20 and then start at 20 and count back to 0. Use a number line if you need to.
[number line to 20](#)

Today, we are going to start looking at the language that will show us the position we are in and the direction we need to go. These are very important words that will help you find something or go somewhere. Some of these words are **over, under, in between, behind, in front of, next to and around**. Get a chair and see if you can show these positions.

Which one did you find difficult to do with one chair? Why? That's right; you need 2 chairs to go in between.

Ok, I would like you to watch this story about a hen called Rosie and a Fox. Listen out for all those direction words.
[Rosie's Walk](#)

Now can you remember the words used to show the directions, Rosie took on her walk? I would like you to watch Rosie's Walk again but this time.....turn the sound off and you say where Rosie is going. **Parents, words to watch for are across, around, over, past, through, under, in.**

Well done, if you remembered them all.

LITERACY

Let's warm up by recognising our sounds. **Parents choose the one best for your child. If they are confident with Sound Set 1 and Sound Set 2, have a go at the sounds below.**

[Sound Set 1](#)

[Sound Set 2](#)

Ok, now you've warmed up, let's do some reading. Today you are going to be reading detectives. Below there are some sets of clues. **Parents, please choose the set best for your child. Set A is easier, Set B harder.** You have to read the sentences carefully and then guess what animal is being described. When you have completed the reading you can go to the slide show on the Home Learning page.

How did you do? Did you manage to guess all 4 animals? Super reading detectives

For your final Literacy task, I would like you to practise your handwriting. Use the handwriting sheet in your pack and the website below to help you. The password is in your home learning pack. Have a go at one of these patterns. [Patterns](#)

Look at these letters, a, d [Easy letters](#)

Parents, please could you draw lines for the children in their books.

Have a go at writing these words in your neatest handwriting: **dad add mad had**

PHYSICAL ACTIVITY

In Maths today, we saw the story of Rosie's walk. You have to be careful when carrying out this activity and remember it is not a race. I would like you to create an obstacle course and then I would like you to make up your own Rosie's walk story. You could then show it to your family. Maybe you could be Rosie and your brother, sister or adult could be the fox. Maybe your adult could tell a Rosie's walk story and you have to follow the directions or you could tell a Rosie's walk story and your adult could follow your directions.

Have fun but be careful!

THEMED LEARNING

Today I have another story for you to watch. This one is about a Lion and a Mouse.

[The Lion and the Mouse Story](#)

Well children, that mouse may have been little but he certainly helped out the big, strong, fierce lion. The lion thought that the mouse could never help him because he was little. The lion was very wrong wasn't he?

How did the mouse help the lion? Can you think of ways that you have helped someone? Have you helped

someone whilst we have been at home?

The mouse was kind. The mouse was brave. The mouse was good at running up and down things. The mouse was good at gnawing the rope that held the lion.

What are you good at?

I would like you to paint a picture of something you are good at. Keep it safe for tomorrow; you will need it for your Literacy work.

INDEPENDENCE SKILL

This week I would like you to begin to learn how to tie your own shoelaces. Shoelaces can be tricky and there are different methods you can use to tie them.

Set A

It is green. It can jump.

It is little. It can run fast.

It is big. It goes clip clop,clip
clop.

It has long ears. It can jump.

Set B

It is green and lives in near a pond. It croaks and eats flies.

It is small. It has little ears and a long tail. It likes to eat cheese.

It is quite big. It lives in a stable. It lets you sit on it's back. It has hooves that go clip clop, clip clop.

It lives in fields but some can be pets. It likes to eat grass. It has long ears and a white tail.
