

HOME LEARNING

Reception WEEK 10 THEME: ANIMALS Date: 15.06.2020

MATHS

Today we are going to start exploring patterns! Patterns can be made from objects, colours, shapes, actions or sounds. Lets start with a game, we're going to create a simple pattern (AB pattern) by using parts of our body, for example you might do something like 'tap knees, clap, tap knees, clap, tap knees, clap' or.... 'left punch, right kick, left punch, right kick'. It just has to be something that can be repeated. Try it with a sibling or grown up. Once you have mastered an AB pattern (2 parts) try an ABC patters (3 parts) for example 'tap knees, clap, touch toes, tap knees, clap, touch toes'.

Once you have created some patterns with your bodies, I would like you to take some play dough and some objects around the house such as shells, shapes, counters. Roll out your playdough into a long flat shape and then see if you can create an AB pattern by pressing the items into the playdough.

LITERACY, COMMUNICATION AND LANGUAGE

Reading: Just a reminder to make sure you are reading regularly with an adult, if you register and log into Oxford Owl there are ebooks that you can use on there. Here's the link: Oxford Owl EBooks

This week we ware going to be looking at the story 'Dear Zoo'. You may have it at home or have read it before but if not, here is the link to the youtube version of the story: <u>Dear Zoo</u> Watch and listen to it carefully and then have a look at some of the words on the sheet below that were used to describe the animals. Can you match the animals to their description?

PHYSICAL ACTIVITY- Choose one

Joe Wicks Work Out

9am The Body Coach on You Tube or use an uploaded video

Stretch Safari Cosmic Kids Yoga

THEMED LEARNING

In the story all of the animals came from the zoo. Have you ever been to the zoo? If you have try to remember what animals you saw there. Take an interactive trip to London zoo here: <u>London Zoo tour</u> after watching try to recall what animals you saw. Then have a look at the sheet below, I would like you to decide which animals you would usually find at a zoo and which animals you would find on a farm. If you have a printer, you could cut them out and stick them in the correct box.

INDEPENDENCE SKILL

This week I would like you to begin to learn how to tie your own shoelaces. Shoelaces can be tricky and there are different methods you can use to tie them. Two of them are below.

Standard Knot

Tie a Left-over-Right starting knot. Make the right (blue) end into a "loop" by doubling it back onto itself

Continue the left (yellow) end around the right loop to end up in front

With the left (yellow) lace now throught the "hole", grab hold of both loops and start to pull the knot tight

Take the left (yellow) end and pass it around to the right, going behind the right loop

Start to feed the left (yellow) lace into the "hole" that has just been made

Continue pulling on the loops until the knot is firmly tied

Bunny Ears

Tie a Left-over-Right starting knot.

Make both ends into "loops" by
doubling them back onto themselves

Begin to wrap the right (yellow) loop around the left (blue) loop to end up in front

With the right (yellow) loop now through the "hole", grab hold of both loops and start to pull

Graphics courtesy of Ian Figgen and reproduced with his permission.Visit Ian's Shoelace site www.fieggen.com

Cross the two loops over each other so that the right (blue) loop ends up in front and the left (yellow) loop ends up behind

Feed the right (yellow) loop into the "hole" that has just been made

Continue pulling on the loops until the knot is firmly tied

Too grumpy

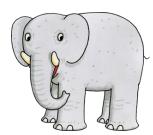

Too fierce

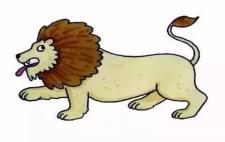

Too tall

Too naughty

Too big

且宝玩英语

Too scary

SORT THE ANIMALS

Can you sort the animals to find where they live? Cut out the animals and glue them in.
