

Spring Sheep

You will need:

- White paper
- A folded piece of colour paper
- A black pen
- A glue stick
- A pair of scissors
- One piece of white piece of paper.

Method:

1. Fold the piece of white paper in half and cut along the fold. You will now have two pieces of paper. With one of the pieces draw a cloud shape which will be our sheep's body. Keep the other half of the paper as you will need it later.
2. Cut around the cloud shape which will be the sheep's body. Stick the sheep's body on the one side of the folded piece of paper. Draw a black oval on the left-hand side of the sheep and draw in the eye and the outline of the ear. With the black pen colour in the head.
3. Use your black pen to draw four legs or your sheep. Now you will need the other half of your piece of paper. Lay it down landscape, using your scissors cut the piece of paper into strips.

4. Using your black pen fold the paper round the pen.

5. Now use your glue to stick the folded paper onto the sheep. Think about your placement of these as they are the sheep's fluff.

6. Finally, stand your sheep up.
